Introducing the App4 Students System

The App4 Students System not only replaces printed schools diaries, it helps manage a host of other key activities within a school.

It functions using three intuitive and easy to use iPad Apps.

Teachers and parents can use an iPad App, or alternatively, a desktop, laptop, or non-Apple device in an advanced web portal window.

The System comprises:

1. **App4 Students**   (Free iPad App)
2. **App4 Teachers**   (Free iPad App and Web Portal)
3. **App4 Parents**   (Free iPad App and Advanced Web Portal)

The App4 Students System is a cloud-based server solution that is built, hosted and maintained for the school by App4 Software.

What schools using the system are saying . . . .

"This suite of three apps has been integral to the success of our 1:1 iPad program.

Very well priced considering the need to do away with the old written diary for students. New features are being added all the time. Excellent support from developers.

When I showed the parents what it could do and how I could push out the information (particularly to parents) – there was a wild round of applause. The parents were very excited – as I knew they would be!"

Scott Roberts, Sacred Heart Central School - Cootamundra, NSW

"App4 Students has been a terrific addition to our school environment. The fact that it contains all of the functionality and information that the old diary did at a fraction of the cost is a bonus . . . .

. . . . We are finding that the App4 system has allowed very real gains in student organisation and teacher efficiency."

Tim Barlow, Director of Technology Innovation, St Leonard's College Melbourne.

The following pages show screen shots from the App4 Students App.

WEEK ONE

WEEK TWO

Highlights where this student should be, based on the current date and time
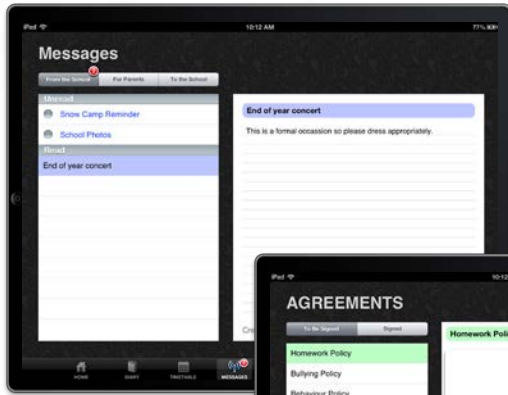

Caters for a range of flexible timetable schedules
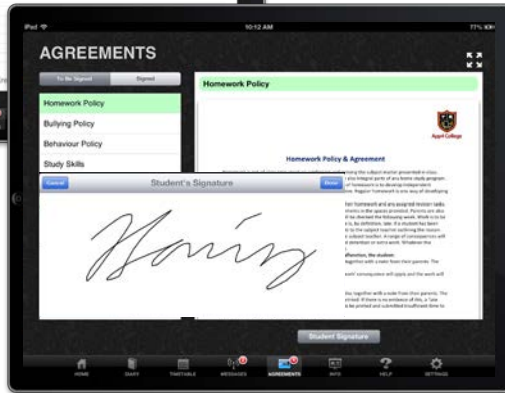

App4 Students

Messages
- From/To the school
- From/To Parents
- Red badge if unread

Agreements
- For students & parents
- Read & sign on glass
- Red badge if unsigned
- Creates signed PDFs and sends to the server

School Info
- Policies, bulletins, news
- PDF, Word or web links
- Easy to add or update

Help Info
- Vital student help info
- PDF, Word or web links
- Easy to add or update

App4 Students

App4 Students replaces the traditional school diary and record book with a modern iPad App that does everything the printed diary used to do, plus much more.

Features and Benefits:

Calendars
- Displays school calendar and student's own iCal events
- Students can create their own calendar event entries

Homework & Assignments
- Shows homework & assignments set by teachers
- Students can add their own homework entries
- Parents can sign-off with a chosen Parent Access Code

Timetables
- Displays an individual student's timetable
- Handles one or two week timetable arrangements
- Timetable information loaded from the school's system
- Or, display a basic classroom timetable PDF

Daily Journal
- Daily Student journal - Add text and a key picture per day

Messages
- Messages can be sent from the school to students and parents
- Parents can reply and send messages to a teacher
- Schools can enable or disable the messages function.

Agreements
- Enables sign-on-glass school agreements to be saved to the server

School Information
- All the school's general information is at the student's fingertips
- Replaces school bulletins and hand outs. Use PDF, Word or web links
- Shows school information that can be updated by school admin

Help Information
- Instant access to student help and assistance pages

App4 Teachers

Teachers can easily and conveniently interact with students by means of their own free iPad App named App4 Teachers.

Alternatively, they can choose to use the included App4 web portal running in a normal browser on a desktop, laptop or other non-Apple device.

Features and Benefits:

Calendars
- Displays school calendar and teacher's own iCal events
- Teachers can create their own calendar event entries
- Teachers can place calendar events in individual student diaries

Homework & Assignments
- Teachers can set homework for a whole class or nominated students
- View which students have started & completed homework
- Add document links straight from lesson planner
- View class statistics on homework started and completed

Timetables
- Displays a teacher's individual timetable from the school system

Daily Lesson Planner
- Auto populates lesson planner with scheduled classes
- Teachers can plan lessons and homework in advance

Student Progress Notes
- Record progress notes on students, for future reference

Messages
- Send messages to students that appear in their App4 Students App
- Send and receive messages from parents via the App or web portal

School Information
- View 'teacher only' bulletins and notices from school administration
- View all the general school information pages

Help Information
- View student help and assistance pages
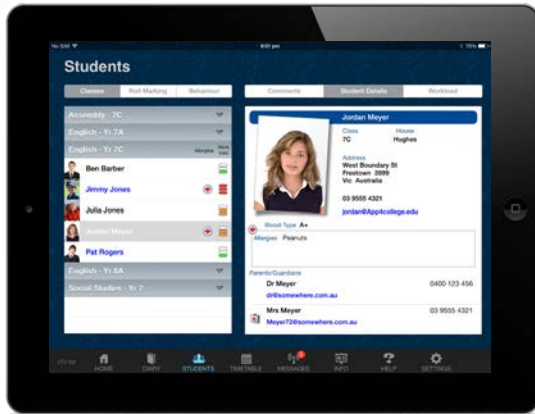

Home Screen
- Shows the school logo
- Edit preferred name
- Edit front page picture
- Includes a notebook
- Offer feedback on App

Manage Homework
- Select whole class or individual students
- Duplicate homework for different classes
- Set due dates
- View progress details

App4 Teachers

Students Tab

- Auto loads data from the timetable system
- View the teacher's classes
- Lists students by class, year level, or last name
- Allergy Indicator
- Workload Indicator shows the homework load per student
- Add/Edit progress notes
- Easy Roll Marking
- Behaviour tab for awarding merits or demerits

Daily Lesson Planner

- Auto populates from school timetable system
- Prepare lessons and homework in advance
- Include any web links
- Push out homework
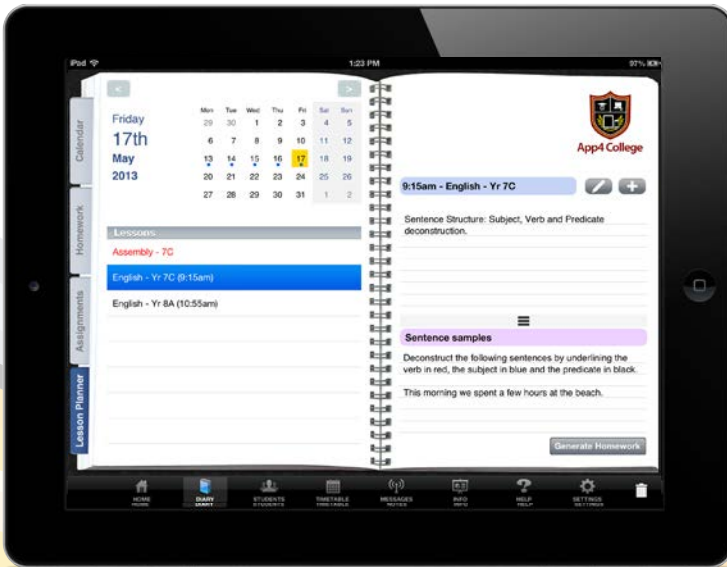

Teachers Web Portal

As well as their own dedicated App, teachers have access to a standard web browser based portal that works on multi-brand desktops, laptops and tablet devices.

## Teacher and Admin Web Portal:

Calendars
- Add and edit teacher calendar events
- Add and edit school calendar events (admin level access)

Homework & Assignments
- Set homework and view student progress as per App
- Add resource and document links straight to lesson planner

Messages, School Information and Timetables
- Send and receive messages from parents, view school information
- Add, Edit and Upload school information (admin level access)
- Edit school terminology and school photos (admin level access)
- Edit school preferences and settings (admin level access)
- Load and edit school timetables (admin level access)
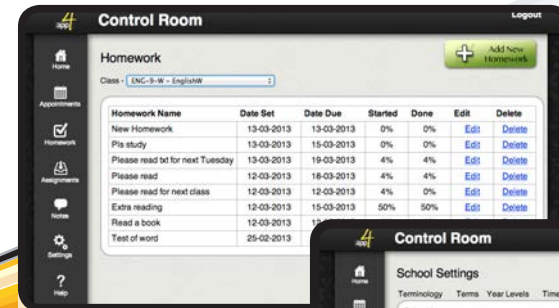

Web Portal

- Standard browser
- Works with desktops, laptops and tablets
- Used to set school admin controls and preferences
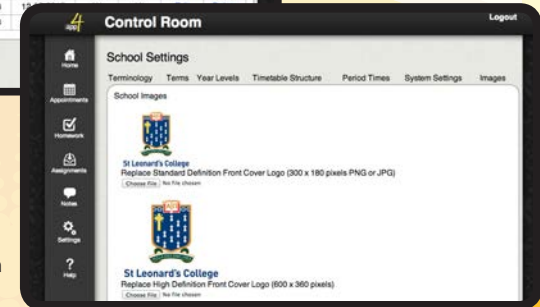

App4 Parents

App4 Parents is a separate App for parents that's included free as part of the App4 Students System.

It allows parents to view their student's diary information including the list of homework and assignments that have been set and completed.

Parents can check that only appropriate text and images are being recorded in their student's diary.

- Parents can sign off on completed home-work and read Messages sent from the school, as well as send Messages to the school (provided the school chooses to turn on those functions).
- App4 Parents is available as an iPad App or as an advanced web portal that works on desktops, laptops and tablets using any standard browser. An App4 Parents mobile phone version is coming soon.
- Key parent functions are protected by means of a parent chosen Access Code.
- Parents and students can submit their 'sign-on-glass' agreements as PDFs.

App4 Parents
(mobile version - coming soon)

Sign-on-Glass Agreements

App4 Parents - Advanced Web Portal

As well as their own dedicated App, parents have access to an advanced web portal that looks and works just like the iPad App.

It works on any standard web browser and on multiple brands of desktops, laptops and tablet devices.

App4 Parents Features:

Calendars and Student Journal
- View school and student calendar events
- View student journal text and image entries

Homework & Assignments
- View what homework has been set, completed and signed off
- Sign-off a student's completed homework (if required to do so)

Messages, School Information and Timetables
- Send messages to and receive messages from a student's teachers
- Parents can choose their own Parent Access Code
- View all the school's standard information and help pages

App4 Parents - Advanced web portal
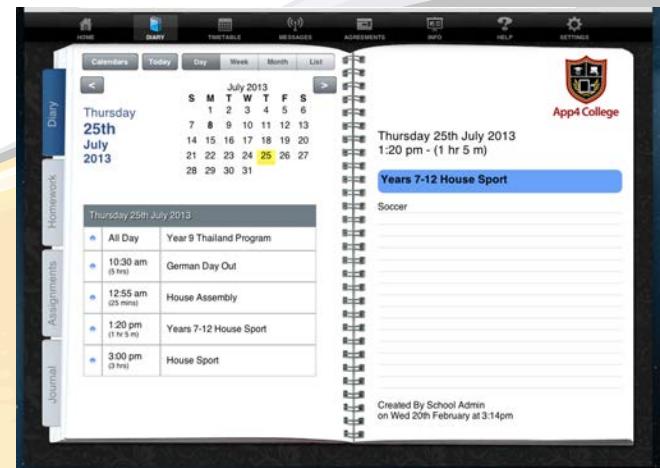

App4 Students System

Pricing

Cheaper than a Printed Diary

- The installation and ongoing use of the App4 Students System is usually cheaper than the annual cost of printing a school diary for each student.
- Other savings can be made by eliminating the need to print daily bulletins, notices and timetable changes.

License Pricing

- The App4 Students license price is based on the number of students and campuses within the school that are using the system
- Each school campus has its own cloud based server and storage
- App4 Software handles the creation and support of each server
- All upgrades and technical support included for each licensed period
- Only student numbers are licensed. Teachers and parents are free
- Pro-rata rates for commencement part way through a school year
- No separate charges for downloading the Apps or using web portals
- Includes full use of App4 Students, App4 Teachers and App4 Parents
- A 50% Server License discount applies to additional (smaller) campusses

Server Setup & installation

- A once-off setup and installation fee applies per campus
- Includes configuration and setup of cloud based server
- Includes setting up import routines for timetable & student data
- Inc staff training on how to administer the App4 Students System
- Performed remotely (included), or onsite (extra fees may apply)

Current Pricing

- App4 Students license pricing for a school can be determined using the calculator on the App4 Software website, or by contacting an Authorised App4 Software supplier/agent. Visit:

  www.app4software.com.au/pricing

App4 Students System

How it Works

Download Free Apps

- Download App4 Students, App4 Teachers and App4 Parents for Free
- On the home screen select Trial Demo option
- Test basic functionality by creating events and homework etc

Full System Demonstration

- Request a full system demonstration from App4 Software
- App4 Software (or consultant) will demonstrate using a demo server
- See how data flows between all three Apps and the admin portals

Live Data Trial (optional)

- Select a group of students and teachers to trial the system
- Live data is exported from the school's system for the trial
- Test the system. Send feedback to App4 Software from home screen

License Agreement

- When happy, return signed license agreement with first license fee
- Renew license fees each school year (pro-rata for a mid year start)

Server Configuration, Staff Training and Going Live

- A cloud server is set up and configured for each school or campus
- App4 Software sets up timetable import routines.
- Staff are trained on updating school info and importing timetables
- Usernames and passwords emailed to students & staff (or use AD)
- The system goes live with all student, teacher and class information
- Any questions or suggestions can be conveyed via the feedback link

Annual Updates and Enhancements

- All updates and enhancements are included in the annual license fee

Timetable Integration

- The system can import directly from these timetable programs:

  - Timetabler
  - First Class
  - Time Chart
  - Plus more . . .
  - Synergetic
  - Maze
  - Excel (templates)
