

4 app Students

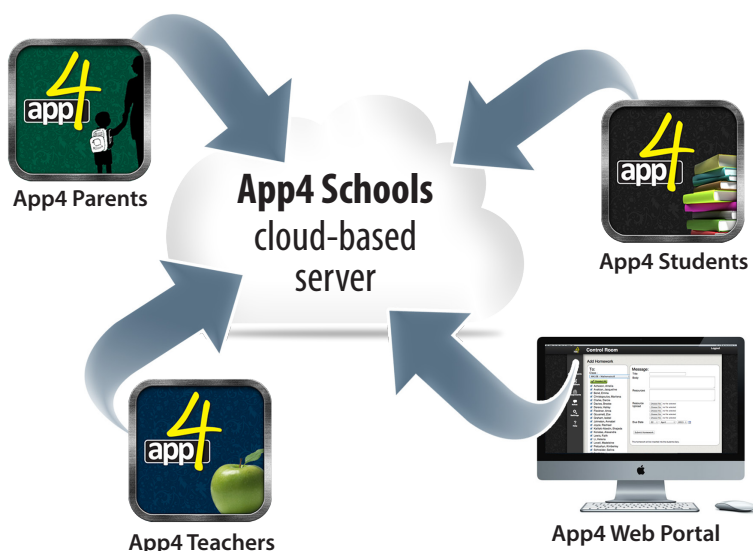

THE ULTIMATE SCHOOL DIARY SOLUTION

"Replacing printed School Diaries"

So much more than a simple App.

The App4 Students Solution is a suite of three Apps that replace the traditional school diary. It will revolutionise the way your whole school communicates. Now teachers, students and parents can experience an interactive diary, calendar, homework and information manager that puts everything at their fingertips and is always up to date. The App4 Students Solution is a cost-effective and eco-friendly, doing away with a mountain of printed diaries, daily bulletins and newsletters.

App4 Students

- Homework & Assignment manager
- Student timetable • Text and picture journal
- School & personal calendars • Info & Help pages
- Sign-on-glass school agreements • Bulletins

App4 Teachers

- Teacher timetable • Daily Lesson planner
- Homework & assignments can be loaded directly into the App4 Students App
- Record notes on your students • Daily Bulletins
- Easily correspond with parents • Info pages

App4 Parents

- View homework & assignment due dates
- Receive teacher messages & announcements
- View student timetable & diary • School Info
- Homework sign-offs • Send notes to school

"App4 Students has been a terrific addition to our school environment. The fact that it contains all of the functionality and information that the old diary did at a fraction of the cost is a bonus... the biggest benefit for our community has come with the increased ease at which teachers are able to communicate and assist with the organisation of their students. Teachers love the ability to push homework tasks into their students' diaries, and administrators are regularly pushing out notes to the entire student cohort or year levels as appropriate. We are finding that the App4 system has allowed very real gains in student organisation and teacher efficiency."

Tim Barlow, Director of Technology Innovation, St Leonard's College Melbourne.
